

LATAMCONNECT

Introducing a new holistic approach to network purchasing and delivery

At GoldConnect, we are committed to making connectivity SIMPLE. With our new customer service and support platform we are rolling out **NEW algorithms** that help create a seamless experience at EVERY touchpoint, from solution design to service delivery and support.

We are now offering instant access to 40+ Million On-Net and Near-Net Buildings, across 17 countries in LATAM.

CHALLENGES LATAMCONNECT SOLVES

Multiple Countries	Multiple Networks	Extremely Long Distances
Each with different rules and regulations for data transport, security, and connectivity	A fragmented service provider ecosystem with 87+ network owners and operators	Complex geography that demands diverse network routes: terrestrial & submarine

BENEFITS OF LATAMCONNECT

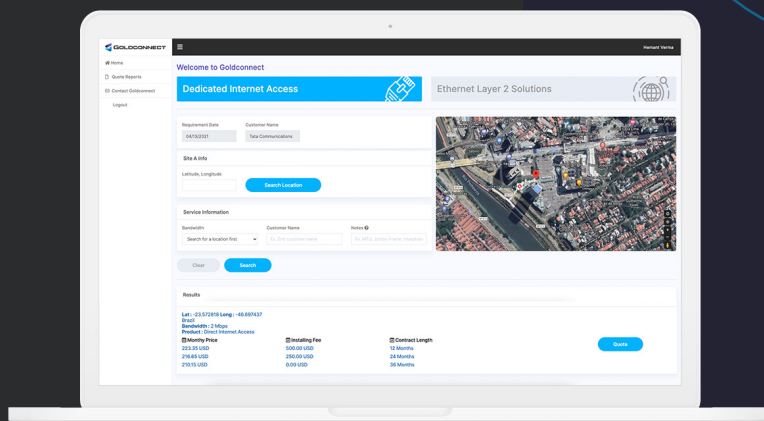

With our new portal, the possibilities are endless:

- Perform quick feasibility analysis for each site
- Pick your CPEs, access technology and diversity requirements
- Estimate latency for each site
- Instant access to competitive pricing
- Create firm, downloadable proposals

LATAMConnect allows the customer to request API access which simplifies the sales processes. It also provides the option for customers to search all past quotes and projects while tracking your installations in real-time and with full visibility from start to finish. If at any time during the process you need assistance, our dedicated wholesale directors are just one click away for support.

LATAMConnect gives you the freedom to build your own path

-  **QUICK** feasibility analysis
-  **ESTIMATE** latency
-  **INSTANT** access to pricing
-  **FIRM** downloadable proposals
